

Nancy Moore, BSN, RN, CMC  
Aging Life Care Professional

Nancy Moore, RN, BSN, CMC, has over 30 years of nursing experience, including oncology, home health, hospice, palliative/end of life care and geriatric care management. Early in her career she helped design and implement one of the first Medicare certified hospices in Arlington, MA, and then served as the Nursing Coordinator of that program. Other nursing experiences include outpatient surgery, performing health screenings at a fitness center, and extensive community health work in both rural and urban settings.

For over 7 years, Nancy worked beside Linda Aufderhaar at Senior Care Associates, and feels she was trained by one of the best in the field of geriatric care management. She received her care management certification in 2010. Nancy brings a caring and compassionate focus to the issues faced by seniors and recognizes the many challenges families face when trying to manage the aging process.
